SASMFOS Congress 2020 dates announced – Diarise these dates!

We are delighted to invite delegates to our annual SASMFOS Congress in 2020. The congress week will take place from 16 to 21 August at various venues in Cape Town, South Africa.

Regular updates will be shared as they are available. We encourage delegates interested in being part of the programme to complete the mailing list form in order to keep abreast of important dates and registration information. Please contact us directly for more information.

Registration will open early 2020, to be notified when registration opens and to receive updates directly to your inbox, please join our SASMFOS Congress 2020 mailing list.

SASMFOS Congress 2020
19 – 21 August, Century City, Cape Town, South Africa

We are excited to announce Associate Professor Darlene Lubbe as a keynote speaker at the congress in 2020. Prof Lubbe is the Associate Professor in the Division of Otolaryngology at the Groote Schuur Hospital at the University of Cape Town, South Africa. Her main interests are in endoscopic sinus, skull base, and now more recently, transorbital surgery. She has presented her work on transorbital surgery at many international conferences across the world and will be teaching the different techniques at international courses over the next few years. We are excited to have her share her knowledge at a special Congress Workshop session on 18 August as well as present at the congress from 19 to 21 August.
